

## **Dollard Water Polo Summer Mini-Camps 2009**

Dollard Water Polo is considered to be one of the most successful and prestigious clubs in Canada. Dollard has won numerous National Championships in the 2000s, continuing its success each year. It is home to some of the best players in the country, who are directed by a coaching staff made up of past National teams athletes, current National & Provincial Team coaches and are lead by the Senior Women's National Team head coach, Patrick Oaten.

Coaches and staff will have the opportunity to work and learn side by side with coaches from Dollard Water Polo, The Quebec Provincial Team and the Canadian National Team, alongside with players from the Junior Men's National Team, and Dollard Water Polo's Senior Men's Team. This exposure will allow the players & coaches to use newly acquired drills and skills to help their teams enjoy a high quality summer Water Polo program.

The camp will focus on player development and game awareness. It is open to all members of the summer pool community. There is no age limit to the participants however, a good swimming base is recommended. Camps will be an hour to two hour session predetermined by the host pool. To find out your pool's camp date, please contact your Head Water Polo Coach.

This Water Polo camp, held in conjunction with Dollard Water Polo, is a great opportunity for all coaches & players to improve their own skills but also the visibility of the sport. If your pool has not yet released their camp date, or for additional camp information please contact Justin Oliveira, the Dollard Water Polo Mini-Camp Coordinator.
